

Cooling & *Freezing Range*

Electrolux has a total commitment to service, quality and innovation. We love producing exciting and surprising new products and because we focus on simplicity and constant improvement and we are passionate about our appliances, we attract the most talented and creative people to work in our development teams. All of which means that when you buy Electrolux you can be sure you have made a wise choice.

Electrolux is proud to be able to call itself the world's number one producer of powered appliances. More than 55 million Electrolux fridges, cookers, washing machines, vacuum cleaners, chain saws and lawn mowers are sold every year to customers who know that we understand their needs and make appliances that have been designed to suit their varied and changing lifestyles. In fact, someone, somewhere in the world, is buying an Electrolux product every single second of the day.

The first Electrolux absorption refrigerator was made in 1925 and we have been developing, creating, improving and innovating ever since. For nearly a century now we have been making excellent products which consistently meet the changing needs of each new generation.

Frost Free Fridge Freezers

We Understand

We listen to our customers and we spend a lot of time researching exactly what you need. This attention to detail and our total commitment to service, quality and innovation has resulted in a range of fridges, freezers and fridge freezers designed specifically to reflect today's awareness of the environment while also suiting all your busy and varied lifestyles.

Our range of cooling and freezing products have been designed to make the most of internal space to offer maximum storage flexibility. All our cooling products have a clean, stylish appearance with smooth rounded interiors which not only look good but are practical and easy to wipe clean. The "Spill Safe" door shelves and dairy compartments contain any spillage or crumbs and can be easily removed to clean.

All our products are CFC free and many are also HFC free, helping to protect the environment.

Fridge Freezers

Electrolux fridge freezers offer the best of both worlds by combining cooling and freezing in one unit. A choice of widths; 60cm, 55cm or 50cm plus different capacity fridge and freezer allow you to match the fridge freezer to your storage needs.

frost free fridge freezer

ER3167BN

- Gross Capacity – Fridge 165 litres (5.8 cu.ft), Freezer 165 litres (5.8 cu.ft)
- Separate fridge and freezer thermostats – to set the temperature of your fridge and freezer independently
- Sensor air vents in the fridge for an even temperature – helping to keep food fresher for longer
- Large "Spill Safe" bottle shelf with grippers – big enough to take 5 litre bottles
- Full width dairy compartment with lid and full width shelf – for storage flexibility
- Two full width glass shelves and one full width salad container with divider and vented cover for optimum freshness
- Bright twin bulb fridge light
- Frost Free state of the art technology – you'll never have to defrost your freezer ever again
- 5 transparent freezer drawers including an ice/pizza tray and 1 super drawer large enough to take a 9kg turkey
- Fast Freeze function – for freezing fresh food rapidly
- CFC and HFC Free – helping the environment

Energy Efficiency Class **B**

Height: 1850mm / Width: 595mm / Depth: 669mm

frost free fridge freezer

ER3162BN

- Gross Capacity – Fridge 205 litres (7.2 cu.ft), Freezer 130 litres (4.6 cu.ft)
- Separate fridge and freezer thermostats – to set the temperature of your fridge and freezer independently
- Sensor air vents in the fridge for even temperature – helping to keep food fresher for longer
- Large “Spill Safe” bottle shelf with grippers – big enough to take 5 litre bottles
- Full width dairy compartment with lid, full width shelf and half width sliding door shelf – for storage flexibility
- Three full width glass shelves and one full width salad container with divider and vented cover for optimum freshness
- Bright twin bulb fridge light
- Frost Free state of the art technology – you’ll never have to defrost your freezer ever again
- 4 transparent freezer drawers including an ice/pizza tray and 1 super drawer large enough to take a 9kg turkey
- Fast Freeze function – for freezing fresh food rapidly
- CFC and HFC Free – helping the environment

Energy Efficiency Class **A**

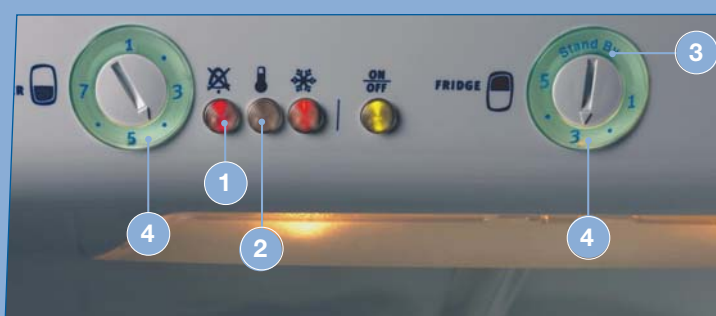

Height: 1850mm / Width: 595mm / Depth: 669mm

Frost Free

Defrosting the freezer is one of those tasks we all hate and put off as long as possible. By choosing a frost free fridge freezer you will never have to defrost your freezer again. In addition as there is no build up of ice in the freezer, storage space is maximised and packages do not stick together.

Frost free works using a fan to circulate the cold air in the freezer. This means food freezes faster maintaining its texture and preserving vital vitamins and minerals.

ER3167BN & ER3162BN

The top panel controls of the ER3167BN and ER3162BN are well out of reach of children and feature an **Audible Open Door (1)** and **High Temperature Alarm (2)** letting you know if the temperature rises above a safe level.

Should you go on holiday, the **Stand-By Holiday Setting (3)** will maintain your fridge at a temperature to help prevent the build up of smells, and make it possible for your fridge to return quickly to its operating temperature.

Independent fridge and freezer controls (4) make it possible to set the temperature of your fridge and freezer independently.

Easy Glide Super Freezer Drawer – can hold a 9kg (20lb) turkey with space to spare.

Frost Free Fridge Freezers

Keep it cool

When shopping try and buy chilled or frozen food last, even if that is not the way the store is laid out and take it home as quickly as possible. If you do need to leave shopping in the car for a time, consider using a cool bag as it is important that food is not allowed to defrost or warm up. Remember never to refreeze food which has defrosted unless it has been cooked.

Auto Door Closing – All our Frost Free fridge freezers have automatic door closing. This clever little device gently draws the door closed to avoid accidental defrosting if you don't quite close the door properly. It is important not to leave your fridge or freezer door open longer than necessary as it can take up to half an hour for a fridge to regain the correct temperature.

frost free fridge freezer **ER7926B**

- Gross Capacity – Fridge 166 litres (5.9 cu.ft), Freezer 121 litres (4.3 cu.ft)
- “Spill Safe” bottle shelf with grippers – contains spillage to make cleaning easier
- Full width dairy compartment, full width door shelf for storage flexibility
- One glass and three wire shelves plus two half width salad containers
- Frost Free Freezer – so you'll never have to defrost your freezer again
- 4 transparent freezer compartments – making it easier to find what you're looking for
- CFC Free – helping to protect the ozone layer

Energy Efficiency Class **C**

Height: 1840mm / Width: 550mm / Depth: 600mm

frost free fridge freezer

ER7626B

- Gross Capacity – Fridge 135 litres (4.8 cu.ft), Freezer 121 litres (4.3 cu.ft)
- “Spill Safe” bottle shelf with grippers – contains spillage to make cleaning easier
- Full width dairy compartment and half width sliding door shelf for storage flexibility
- One glass and two wire shelves plus two half width salad containers
- Frost Free Freezer – so you'll never have to defrost your freezer again
- 4 transparent freezer compartments – making it easier to find what you're looking for
- CFC Free – helping to protect the ozone layer

Energy Efficiency Class **C**

Height: 1700mm / Width: 550mm / Depth: 600mm

Understand your stars

Both freezers and frozen food carry star ratings. It is important to understand what these mean.

One Star ★ Means frozen food can be stored for one week

Two Stars ★★ Means frozen food can be stored for one month

Three Stars ★★★ Means frozen food can be stored for three months

Four Stars ★★★★ Means fresh food can be frozen

Thawing Facts...

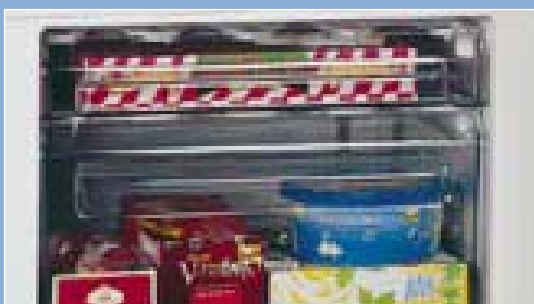

- Never refreeze thawed food. Thawed food can go off more quickly than fresh food as the micro-organisms are breeding more rapidly. For that reason cook it and consume it within 24 hours. Some foods can be refrozen after cooking.
- Defrosting food is best done slowly as it allows the food to reabsorb the water that has been dried out of it during the freezing process.
- The ideal way to defrost is in the fridge as it is a slow form of defrosting and thereby preserves the texture of the food. It is also better for energy efficiency as the cold air aids the refrigeration process.
- The microwave is the fastest method of defrosting though food should be cooked immediately afterwards as the food can start to cook.
- You can defrost in some fan ovens that offer a defrost function. This is an option for the fan to work with no heat and is particularly good for cream gateaux.
- Defrosting in cold water is two to three times faster than in air and in running water is even faster again. However, don't defrost in hot water as taste, nutrition and looks can be lost. If in a hurry use lukewarm water.
- On no account should the defrost liquid (melted ice) be used, as this can harbour salmonella.

Fridge Freezers

Our selection of fridge freezers allows you to choose one which will fit into your kitchen and match your storage requirements. The interior shelves and door fittings have a variety of positions for maximum storage flexibility. The transparent drawer fronts of the freezer compartments make it easier to locate food.

Full width door shelf – ideal for bottles and cartons

Transparent drawer fronts – making a particular item much easier to find

“Spill Safe” door shelves – contain any leaks or spillages making cleaning quick and easy. Also bottle grippers securely hold bottles in place as you open and close the door.

fridge freezer **ER8126B**

- Gross Capacity – Fridge 167 litres (5.9 cu.ft), Freezer 143 litres (5.0 cu.ft)
- “Spill Safe” bottle shelf with grippers – contains spillage to make cleaning easier
- Full width dairy compartment and full width door shelf for storage flexibility
- One glass and two wire shelves plus two half width salad containers
- 5 transparent freezer drawers including an ice/pizza tray – easier to find what you’re looking for
- CFC Free – helping to protect the ozone layer

Energy Efficiency Class **C**

Height: 1840mm / Width: 545mm / Depth: 600mm

fridge freezer

ER7826B

- Gross Capacity – Fridge 136 litres (4.8 cu.ft), Freezer 143 litres (5.0 cu.ft)
- “Spill Safe” bottle shelf with grippers – contains spillage to make cleaning easier
- Full width dairy compartment and half width sliding door shelf for storage flexibility
- One glass and two wire shelves plus two half width salad containers
- 5 transparent freezer drawers including an ice/pizza tray – easier to find what you’re looking for
- CFC and HFC Free – helping the environment

Energy Efficiency Class **C**

Height: 1700mm / Width: 550mm / Depth: 600mm

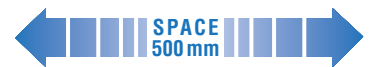

fridge freezer

ER7526B

- Gross Capacity – Fridge 136 litres (4.8 cu.ft), Freezer 110 litres (3.9 cu.ft)
- “Spill Safe” bottle shelf – contains spillage to make cleaning easier
- Full width dairy compartment and half width sliding door shelf for storage flexibility
- One glass and two wire shelves plus two half width salad containers
- 4 transparent freezer drawers including an ice/pizza tray – easier to find what you’re looking for
- CFC and HFC Free – helping the environment

Energy Efficiency Class **C**

Height: 1500mm / Width: 550mm / Depth: 600mm

fridge freezer

ER7020D

- Gross Capacity – Fridge 138 litres (4.9 cu.ft), Freezer 68 litres (2.4 cu.ft)
- Freezer compartment at the top – for easy access to frozen food
- Single freezer storage compartment with shelf to make the best use of the space available
- One bottle shelf, one full width shelf and one full width dairy compartment
- One glass and two wire shelves plus a full width salad container
- CFC Free – helping to protect the ozone layer

Energy Efficiency Class **C**

Height: 1380mm / Width: 500mm / Depth: 600mm

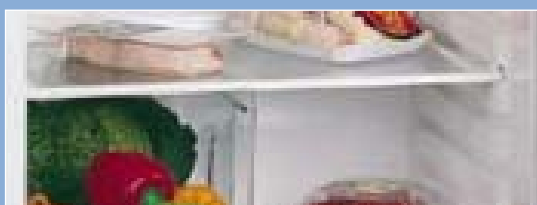

Fridges

Where space in the kitchen allows, a separate larder fridge and freezer are the perfect choice. Choose between a matching pair or have a different size fridge and freezer depending upon your personal storage requirements.

If you have a freezer elsewhere and only require a small amount of frozen food storage in the kitchen then our under-counter refrigerator ER6642T with two-star freezer compartment is the answer.

Horizontal bottle rack – The ER8817C features a bottle rack which utilises the space between shelves to the maximum.

Glass temperature divider – The ER8817C also has a glass temperature divider which regulates the flow of cold air within the fridge. The area at the bottom of the fridge, below the divider, can be kept at a slightly higher temperature which is ideal for storing vegetables.

Matching EU7120C freezer and ER7620C fridge – If you require a large amount of storage then the EU7120C and ER7620 are an ideal choice. The door hinging can be reversed as shown for easier access.

larder fridge ER8817C

- Gross Capacity – Fridge 386 litres (13.6 cu.ft)
- “Spill Safe” bottle shelf with grippers – contains spillage to make cleaning easier
- Full width dairy compartment with lid, 4 full width door shelves plus one half width sliding door shelf for storage flexibility
- Bottle rack to utilise space between shelves
- Glass temperature divider to regulate the temperature within the fridge
- Two glass and five wire shelves plus one full width and half width salad container
- Ideal partner for EU8216C Upright Freezer
- CFC and HFC Free – helping the environment

Energy Efficiency Class **C**

Height: 1800mm / Width: 595mm / Depth: 600mm

larger fridge

ER7620C

- Gross Capacity – Fridge 263 litres (9.3 cu.ft)
- “Spill Safe” bottle shelf with grippers – contains spillage to make cleaning easier
- Full width dairy compartment with lid, 2 full width door shelves plus one half width sliding door shelf for storage flexibility
- One glass and five wire shelves plus one full width salad container
- Ideal partner for EU7120C Upright Freezer
- CFC and HFC Free – helping the environment

Energy Efficiency Class **B**

Height: 1400mm / Width: 550mm / Depth: 600mm

larger fridge

ER6641T

- Gross Capacity – Fridge 159 litres (5.6cu.ft)
- Bottle shelf for cartons or bottles
- Full width dairy compartment with lid and 1 full width door shelf for storage flexibility
- One glass and two wire shelves plus one full width salad container
- Ideal partner for EU6241T Upright Freezer
- CFC Free – helping to protect the ozone layer

Energy Efficiency Class **B**

Height: 850mm / Width: 550mm / Depth: 600mm

fridge

ER6642T

- Gross Capacity – Fridge 137 litres (4.8 cu.ft), 2 Star freezer compartment 20 litres (0.71 cu.ft)
- 2 Star freezer compartment for the storage of frozen food for up to one month
- Bottle shelf for cartons or bottles
- Full width dairy compartment with lid and 1 full width door shelf for storage flexibility
- One glass and two wire shelves plus one full width salad container
- CFC Free – helping to protect the ozone layer

Energy Efficiency Class **B**

Height: 850mm / Width: 550mm / Depth: 600mm

Upright Freezers

Choose a freezer to meet your needs. If you have a large family or bulk cook meals for the freezer then you'll want the EU8216C with seven freezer compartments.

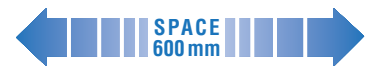

The **Fast Freeze** function is ideal for freezing fresh food straight from your garden or from the supermarket. The Fast Freeze function drops the freezer temperature below -26°C which ensures fresh food freezes quickly to maintain its nutrients and texture.

Convenient pull out ice tray – The EU7120C has a convenient pull out tray which is ideal for storing ice cubes or for open freezing soft fruits. It's also just the right size for a family-sized frozen pizza.

Ergonomically designed handles – on both the larger fridges and upright freezers are tested to the equivalent of 15 years use and our fridge freezers have special easy clean integrated handles with no dust traps.

upright freezer **EU8216C**

- Gross Capacity – Freezer 315 litres (11.1 cu.ft)
- 7 Transparent freezer compartments – making it easier to find what you're looking for
- Interior light – illuminate contents
- Fast Freeze function – for freezing fresh food rapidly
- Ideal partner for ER8817C larger fridge
- CFC and HFC Free – helping the environment

Energy Efficiency Class **C**

Height: 1800mm / Width: 595mm / Depth: 600mm

upright freezer

EU7120C

- Gross Capacity – Freezer 206 litres (7.3 cu.ft)
- 7 Transparent freezer compartments including an ice/pizza tray – making it easier to find what you're looking for
- Fast Freeze function – for freezing fresh food rapidly
- Ideal partner for ER7620C larder fridge
- CFC and HFC Free – helping the environment

Energy Efficiency Class **C**

Height: 1400mm / Width: 550mm / Depth: 600mm

upright freezer

EU6241T

- Gross Capacity – Freezer 117 litres (4.1 cu.ft)
- 3 freezer compartments plus ice/pizza tray for storage flexibility
- Fast freezer function – for freezing fresh food rapidly
- Ideal partner for ER6641T larder fridge
- CFC Free – helping to protect the ozone layer

Energy Efficiency Class **B**

Height: 850mm / Width: 550mm / Depth: 600mm

Freezer Tips

- Do not put fresh food in the freezer next to frozen food as it could raise the temperature of the food that is already frozen. Rearrange the contents of the freezer so the fresh food is in a separate compartment. Use the Fast Freeze compartment if your freezer has one or the bottom drawer if it does not, as this is the coldest place.
- Remove air from packaging when freezing food as oxygen destroys the vitamin content and natural colouring of the food. Wrapping food in tin foil or using freezer bags which have an airtight seal is best for insulating food in the freezer.
- Meat and fish can be frozen raw and without preparation, as can herbs, cheese and butter.
- Vegetables need to be blanched first before freezing to ensure they retain texture and flavour.
- Freeze fresh herbs in the summer in ice cubes and use in the winter for stews or casseroles.
- Cook tomatoes which have lost their firmness and store in the freezer to use at a later date in casseroles.

†A gap of at least 6.5 cm must be left if installing this product with the hinge side next to a wall to allow the door to be opened fully.

NOTES:

*1 On a Scale of **A** more efficient **G** less efficient.

*2 Based on standard test results for 24 hours in accordance with EN 153. Actual consumption will depend on how the appliance is used and where it is located.

*3 Time for food temperature to rise from – 18°C to – 9°C with the power off and the door remaining closed.

*4 Amount of food that can be frozen within 24 hours in addition to keeping the existing contents frozen.

*5 The product is suitable for use in ambient temperatures of: SN 10 – 32°C; N 16 –32°C; ST 18 – 38°C.

*6 All models are 100% CFC Free, have reversible doors and come fitted with a 13amp plug.

Electrolux Customer Service Support

Customer Care Helpline.

For further details on all Electrolux products, please telephone our customer care helpline **08705 950 950** between 0800 – 1800 Monday to Friday and 0900 – 1300 on Saturday.

www.serviceforce.co.uk

Once you've bought an Electrolux appliance you're safe in the knowledge that in the unlikely event of a fault occurring you can rely on a commitment to look after your appliance throughout its working life. Over seven hundred, fully trained service engineers are available nationwide and our complete care service is one of the most extensive and reliable available.

12 months Parts and Labour Guarantee.

In the unlikely event of any repairs being required in the first year, we will carry them out free of charge. In addition, any repairs carried out after the guarantee period are covered by their own 12 months guarantee.

Rapid Service or a Replacement.

If you call us out under the 12 months guarantee, we endeavour to fix the appliance within seven working days of our first call. If we fail, you can claim a replacement product free of charge.

Genuine Spares.

Any repairs are carried out using genuine Electrolux parts manufactured to the same high standard as your appliance, for maximum reliability and total peace of mind.

Service Force – Fast Service.

If you phone us on **08705 929 929** before 10.00am, Monday to Friday, an engineer will endeavour to call on you the same day. If you phone after 10.00am, we will endeavour to be there the next day†. Although it's not possible for us to extend this rapid call-out service to rural areas, we will nevertheless do our level best to be with you as soon as possible.

Local Service, Nationwide.

We can keep your Electrolux appliance in peak condition, no matter where you live.

Bookable Calls.

We can allocate either the first or last call of the day to you, free of charge, leaving you to spend the rest of the day as you choose. It is not always possible to offer this option within two days. For a small extra charge, you can also book us to call out of hours. Contact Service Force for more details.*†
